PROJECT PLANNING PHASE

PREPARE MILESTONE AND ACTIVITY LIST

Team ID	PNT2022TMID07554
Project Name	Project – Global Sales Data Analytics

- ## What is a Milestone in a Project?

Milestones are checkpoints that highlight the successful completion of major events, tasks, or groups of tasks along your project timeline.

- ## Project milestone checkpoints?

Your team reaches a milestone when you accomplish something notable, such as: Finalizing a business plan

Launching your first marketing campaigns,Getting your first 100 customers.

- ### Why are project milestones important?

Here are a few more things your team can do with milestones in project management:Monitor project progress Spot potential bottlenecks Identify when the project will be completed.

- ### Five project milestone examples:
1. Project approval
2. Requirements review
3. Design approval
4. Project phase milestones
5. Final approval
